EDUCATION

Sarala Birla University — Ranchi, India (August 2023 – May 2027)

Bachelor of Technology – Computer Science Engineering; GPA: 7.57

Courses: Operating Systems, Data Structures, Analysis Of Algorithms, Artificial Intelligence, Machine Learning, Networking, Databases

SKILLS SUMMARY

- **Languages:** C, C++, Python, JavaScript
- **Technical Skills:** MS Excel, Word, PowerPoint, React.js, Node.js, Flask, MySQL, HTML5, CSS3, OpenCV, TensorFlow, Keras, Fast API
- **Platforms:** Github, Firebase, VS Code, Google Cloud / Vertex AI
- **Soft Skills:** Leadership, Problem-solving, Communication, Team Collaboration, Analytical Thinking, Time Management, Public Speaking, Event Management

EXPERIENCE

Central Coalfield Limited - Ranchi — Onsite (Full-time) [June 2026 – July 2026]

IT Intern

- **Enterprise Portal Development:** Built modular internal dashboards to streamline intra-departmental workflow reporting and asset tracking across mining divisions.
- **Database & REST API Optimization:** Designed and integrated secure Restful endpoints with Oracle SQL/PostgreSQL databases to automate daily coal dispatch and inventory data synchronization.
- **System Automation & Monitoring:** Implemented automated background scripts and scheduled services to reduce manual log compilation time and improve system uptime monitoring.

CodeAlpha — Remote (Part-time, Contractual) [August 2026 – Present]

Python Developer Intern

- **Automated Data Processing Pipelines:** Developed end-to-end Python scripts leveraging Pandas and NumPy to parse, clean, and transform unstructured datasets for downstream analytics.
- **Core Application Development:** Built interactive CLI and GUI-based utility tools, incorporating modular architecture, robust error-handling, and unit tests to ensure code reliability.
- **Algorithm Optimization & Web Scraping:** Designed automated scrapers using BeautifulSoup and Requests to extract targeted web data.

Codestamp Technology - Ranchi — Onsite (Full-time) [June 2025 – July 2025]

IT Intern

- **Data Integrity & Document Verification:** Executed daily data entry and verified 1,000+ internal documents and records.
- **Quality Control & Stakeholder Reporting:** Conducted systematic quality checks on operational logs, collaborating with key department stakeholders to generate and deliver weekly audit and performance reports.
- **Compliance & Confidentiality Management:** Enforced strict organizational data security and compliance protocols, safeguarding sensitive stakeholder information and maintaining zero privacy breach incidents.

PROJECTS

- **AI-Based Interview Evaluation System** (NLP, Machine Learning, Web Development): Developed an AI-powered platform to evaluate candidate resumes and interview responses using TF-IDF and Cosine Similarity, with automated resume parsing and question generation. *Tech: React, FastAPI, Python, NLP, Machine Learning (March '26)*
- **Campus Central – Smart College Coordination Platform** (Web Development, AI, Cloud Computing): Developed a centralized platform for managing college coordination, student communication, and academic activities with AI-powered assistance and real-time data management. *Tech: Firebase, Google Gemini API, Vertex AI, JavaScript, HTML, CSS (August '24)*
- **Umang Sports Meet Web App** (Web Development, Database Management): Developed a sports-meet management platform featuring house-wise leaderboards, event results, schedules, student lookup, QR-based attendance, notifications, and Excel export with a dedicated management interface. *Tech: HTML, CSS, JavaScript, Firebase, QR Code, Excel Integration (March '25)*

ACHIEVEMENTS

- **National Finalist – SIH 2024:** Recognized as a national finalist for developing an innovative technology-based solution at the national-level hackathon. (November '24)
- **GDG on Campus Lead – Sarala Birla University:** Led technical community initiatives, organizing developer-focused events, workshops, and student engagement activities. (October '25 – May '26)
- **Selected – UPEN Student Exchange Program - 2026:** Selected for an international student exchange opportunity, demonstrating academic excellence and global exposure. (April '26)
- **Core Organizing Member – Under-7 Chess Tournament (2025 & 2026):** Played a key role in organizing and coordinating the Under-7 Chess Tournament for two consecutive years, managing event operations and participant coordination. (March '25 & July '26)

CERTIFICATIONS & COURSES

- Data Structures & Algorithms (DSA) – Udemy – June, 2025
- Career Edge – AI Foundation – TCS iON – August, 2026
- SQL Analytics & BI on Databricks – Databricks (via Simplilearn SkillUp) – August, 2026
- AI Literacy & Foundations in Generative AI – IBM SkillsBuild – August, 2026
- Cyber Job Simulation – Deloitte (via Forage) – August, 2026

VOLUNTEER EXPERIENCE

- **Campus Lead at Google Developer Groups on Campus SBU:** Led the campus developer community, organizing workshops, hackathons & technical bootcamps. (Oct 2025 – May 2026)
- **Group Lead at National Service Scheme (NSS) SBU:** Directed student volunteer units in organizing social outreach, blood donation, etc. (Jul 2024 – Jun 2025)
- **Event Volunteer at Vocal for Local NGO:** Managed event logistics and vendor outreach to support regional artisans. (Jul 2021 – Present)
